Chemical Leasing and Cleaner Production | SpringerLink

The challenge: Traditional business models are fuelling the unnecessary consumption of chemicals and the generation of hazardous waste. The response: Shifting the focus from increasing the sales volume of chemicals to a value-added approach. Chemical Leasing is centred around a unit of payment; the payment is no longer related to the chemical itself, but to the benefits of the chemical.

Industry 4.0 and the chemicals industry - Deloitte US

Chemical Leasing (ChL) is a service-oriented business model that aligns the interests of the chemical supplier with those of the chemical user by compensating the service of the chemical rather than the chemical volume sold and used.

OECD Environment, Health and Safety Publications

Definitions. The term Chemical Leasing is the name of a business model and is NOT the same thing as leasing of chemicals, although it may include leasing operations. The producer mainly sells the functions performed by the chemical and the functional units, such as the number of pieces painted, are the main basis for payment.
