Clinical Trial Services. Clinical trials are research studies that test how well new medical approaches work in humans. These biomedical and or behavioral research studies are designed to answer specific questions about new therapeutic products or procedures with the aim of generating safety and efficacy data, data used to support regulatory submissions, and approvals across the globe.

Post-resuscitation management of asphyxiated neonates

Red-cell transfusions are a cornerstone of critical care practice, 1 but there are divergent views on the risks of anemia and the benefits of transfusion in this setting. One important concern is ...

A Multicenter, Randomized, Controlled Clinical Trial of

Immersion in Water During Labor and Delivery. ABSTRACT: Immersion in water during labor or delivery has been popularized over the past several decades. The prevalence of this practice in the United States is uncertain because it has not been studied in births outside of the home and birth centers, and the data are not recorded on birth certificates.
