Hospital emergency codes are coded messages often announced over a public address system of a hospital to alert staff to various classes of on-site emergencies. The use of codes is intended to convey essential information quickly and with minimal misunderstanding to staff while preventing stress and panic among visitors to the hospital.

Note: Conventional molecular cytogenetic analyses of genetic lesions in T-ALL are summarized below. The following section presents prominent, recurring chromosomal abnormalities that affect either TCR or genes other than TCR (non-TCR genes) in T-ALL (Table 1).

T-lineage acute lymphoblastic leukemia (T-ALL)

History. In 1963, the M. S. Hershey Foundation offered \$50 million to the Pennsylvania State University to establish a medical school and teaching hospital in Hershey, Pennsylvania. With this grant and \$21.3 million from the U.S. Public Health Service, the university built a medical school, teaching hospital, and research center. Ground was broken in 1966 and Penn State's College of Medicine ...
