Yellow is the color between orange and green on the spectrum of visible light. It is evoked by light with a dominant wavelength of roughly 570–590 nm. It is a primary color in subtractive color systems, used in painting or color printing. In the RGB color model, used to create colors on television and computer screens, yellow is a secondary color made by combining red and green at equal intensity.

Abstract. The ancient Chinese concept of health reaches far beyond the mere absence of symptoms to include the presence of a strong vital energy known as qi. A smooth, harmonious, and active flow of qi creates harmony in the body and a balanced state of being in the person. This personal health is further matched by health in nature, defined as regular weather patterns and the absence of disasters.

During the war, in hundreds of millions over America, managers and engineers learned to get along without their men and women, who went to fight. It was the miracle that won the war – production with almost no manpower. In the patois of the north side of the river, it was the know-how that won the war. Democracy owed its life to know-how.. Chapter 1 (p. 9) ...
