are the fundamental differences between making quality, red wine and white wine. At first glance, the two winemaking processes may appear similar because several steps are identical. Nevertheless, the steps are

done in a different sequence, and the sequence makes a large change in wine characteristics. The two processes are shown in Figure 1.

### **THE HOME WINEMAKERS MANUAL - Valley Vintner**

Wine making is a natural process that requires little human intervention, but each wine maker guides the process through different techniques. In general, there are five basic components of the wine making process: harvesting, crushing and pressing, fermentation, clarification, and aging and bottling.
