Guess the Domino Trick. Your older students (or their parents) will be amazed at your mathematical prowess as you execute this domino trick. You might want to have calculators on hand with the dominoes for your initial presentation, as the trick won't work if participant's mental math skills are weak.

Mathematica, Maple, and similar software packages provide programs that carry out sophisticated mathematical operations. Applying the ideas introduced in Computer Algebra and Symbolic Computation: Elementary Algorithms, this book explores the application of algorithms to such methods as automatic simplification, polynomial decomposition, and polynomial factorization.
