ADDI-DATA is your specialist for industrial measurement and automation. We offer products for data acquisition, motion control, position acquisition, quality control, process control or signal switching.

Specialist for industrial measurement and automation

1. General description The TDA5051A is a modem IC, specifically dedicated to ASK transmission by means of the home power supply network, at 600 baud or 1200 baud data rate.

TDA5051A Home automation modem - NXP Semiconductors

Automatic train operation (ATO) is an operational safety enhancement device used to help automate operations of trains. Mainly, it is used on automated guideway transits and rapid transit systems which are easier to ensure safety of humans. Most systems elect to maintain a driver (train operator) to mitigate risks associated with failures or emergencies.

Automatic train operation - Wikipedia

The world's number one programmable stripping machine has become even better and more precise: Equipped with the quality monitoring tool SmartDetect, the UniStrip 2300 is now able to detect faulty insulation during production.
