In finance, valuation is the process of determining the present value (PV) of an asset. Valuations can be done on assets (for example, investments in marketable securities such as stocks, options, business enterprises, or intangible assets such as patents and trademarks) or on liabilities (e.g., bonds issued by a company). Valuations are needed for many reasons such as investment analysis ...

A security interest is a legal right granted by a debtor to a creditor over the debtor's property (usually referred to as the collateral) which enables the creditor to have recourse to the property if the debtor defaults in making payment or otherwise performing the secured obligations. One of the most common examples of a security interest is a mortgage: When person, by the action of an ...

1 May 2016 How will IFRS 16 impact real estate entities? Contents Highlights The IASB has issued a new leases standard that requires tenants to recognise most rental contracts on their balance sheets. Tenants will apply a single accounting model for all rental contracts (with an exemption for short-term leases).
