

### **the national physical laboratory pdf**

The National Physical Laboratory was established in 1900 at Bushy House "to bring scientific knowledge to bear practically upon our everyday industrial and commercial life". It grew to fill a large selection of buildings on the Teddington site. NPL procured a large state-of-the-art laboratory under a Private Finance Initiative contract in 1998. The construction, which was being undertaken by ...

Effective October 1, 2018, NIST's Center for Nanoscale Science and Technology (CNST) became part of the Physical Measurement Laboratory. Read more.

### **Physical Measurement Laboratory | NIST**

The Pacific Northwest National Laboratory in Richland Washington is a U.S. Department of Energy (DOE) government research laboratory. The Laboratory focuses on research and development related to waste management, environmental restoration, global environmental change, energy and national security.

### **Pacific Northwest National Laboratory | Discovery in Action**

In collaborations that combine our expertise with that of industry, academia and other government laboratories, our scientists and engineers deliver research tools and solutions that enable access to affordable, environmentally clean energy, and reduce our dependence on foreign energy sources.

### **Energy Research and Development | Argonne National Laboratory**

The Engineering Laboratory promotes U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology for engineered systems in ways that enhance economic security and improve quality of life.
