be statistically significant may not have much practical significance. -The media has the tendency to report only "sexy" results; beware of reports where it is evident that many tests were conducted, but where results of only 1 or 2 studies are presented as "significant".

**Statistical versus Practical Significance - The Atrium**

Most music theory courses are geared toward the use of "standard" musical notation (G clef, notes like this "♩" on a staff, etc.) and assume that the student plays and has access to a piano. The emphasis will be on just the practical aspects of music theory, not the near-infinite complexities beloved of ivory-tower theorists.
