

### **the safety net pdf**

A safety net is a net to protect people from injury after falling from heights by limiting the distance they fall, and deflecting to dissipate the impact energy. The term also refers to devices for arresting falling or flying objects for the safety of people beyond or below the net. Safety nets are used in construction, building maintenance, entertainment, or other industries.

GSN are always in need of more Foster-carers as requests to rescue greyhounds are much greater than the available foster-homes in our program. Our foster-carers are a vital link in the rescue chain, as GSN dogs are kept in foster-homes until adopted. Every greyhound taken into foster care is a dog saved, and every greyhound adopted makes room to save another.
