This document describes the labor productivity measures that BLS publishes for the major sectors of the U.S. economy, as well as the methodology used to calculate these measures. Information Supporting Major Sector Productivity and Costs Hours

Labor Productivity and Costs Home Page (LPC)

Service design is the activity of planning and organizing people, infrastructure, communication and material components of a service in order to improve its quality and the interaction between the service provider and its customers. Service design may function as a way to inform changes to an existing service or create a new service entirely. The purpose of service design methodologies is to ...

Baumol's cost disease (or the Baumol effect) is the rise of salaries in jobs that have experienced no or low increase of labor productivity, in response to rising salaries in other jobs that have experienced higher labor productivity growth. This pattern seemingly goes against the theory in classical economics in which real wage growth is closely tied to labor productivity changes.
