changes of taste within the art establishment. They are, how-ever, rarely part of the decision-making process. Although their multicultural or "exotic" aesthetics may be appreciated, or even valued, the degree to which they are able to attain cul-tural citizenship and exercise their cultural rights remains questionable.

The consumption of these products confers on the consumer a greater sense of morality and usually a claim to better taste. This paper tells the story of attempts to promote organic/fair-trade rice production by de facto organic Cambodian farmers for export to North American and European markets in order to assist poor farmers to trade their way out of poverty.

### **The tyranny of taste: The case of organic rice in Cambodia**

"The Tyranny of Taste is a significant contribution to the study of architectural design, decorative arts, and the changing field of art history. It provides an excellent study of how national politics and economic concerns have influenced and will continue to influence public and domestic design. . . .
