[ENGLISH] Women Scientists And Engineers Employed In

In an era when women are increasingly prominent in medicine, law, and business, why are there so few women scientists and engineers? A 2010 research report by AAUW presents compelling evidence that can help to explain this puzzle. Why So Few?

Why So Few? Women in Science, Technology, Engineering, and

engineers, women were 1.5 percent of the total, 0.6 percent of those with Ph.D.'s, 1.1 percent of those with mas- ... of women scientists below the doctoral level. There was a fivefold increase in the number of women with master's degrees in science between 1960 and 1978 and a

Women Scientists and Engineers: Trends in Participation

The apparent preference of women scientists and engineers for jobs outside the industrial sector and the larger exit rate of women than men from industrial employment suggest that women perceive the climate in industry as less than favorable for a scientific or technical career.

2 Barriers for Women in Corporate Culture | Women

The parts that scientists and engineers use are Daubechies's waveletsâ€”mathematical building blocks that are also used for data compression and encryption. "If you painted a picture with a sky, clouds, trees, and flowers, you would use a different size brush depending on the size of the features," says the mathematician.
